Trium
Mobile phones

When we're young, we use all our senses in conversation. Sight, hearing, smell, touch and even taste: it's all part of how we communicate with each other. But as we grow up, and we're no longer side-by-side, sometimes we need a little extra help to keep in touch. That's why Trium phones offer a rich selection of features and are 'WAP' ready for internet access and e-mail. Making conversation even more of a pleasure. The pleasure of *conversation*.

mars

Power

Extra batteries, travel adaptors, desktop chargers, cigarette lighter adaptors... whatever power you need, we've got it!

Handsfree

Professional car kit

Keep your hands on the wheel and your conversation flowing with our professional car kit. Includes microphone, speaker and in-car holder, as pictured below. Easy to install.

Belt clip

Clip it on and keep it close – slip your mobile into our holder and attach it to your belt so that it's always to hand.

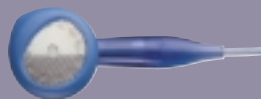

Car charger and holder

Charge your phone on the move with our kit combining a car cigarette lighter adaptor and stylish phone holder.

Personal handsfree

Our neat headset leaves your hands free to do... whatever you want... Also available: FM stereo headset

Customisation

CLICK-ON panels and Second Skins

Sleek and sophisticated, or bright and colourful – change your Mars to match your mood with our **CLICK-ON** panels for both the key pad and battery pack. For a complete makeover, add a chunky rubber Second Skin.
