1. THE FOLLOWING SHOULD ALWAYS BE OBSERVED FOR SAFETY

- The unit should be installed by a professional installer. Improper installation may cause operation failure or damage. If the unit is damaged, call the service center.

- To prevent accidents, follow the installation instructions carefully.

- To ensure safety, connect the ground wire to the ground terminal of the unit.

- Do not install the unit where there is a risk of explosion or fire caused by flammable gas.

- Do not install the unit where there is a risk of water leakage.

2. INSTALLATION DIAGRAM AND ACCESSORIES

- Use the accessories provided with the unit.

- Make sure all parts are securely attached.

3. INDOOR UNIT INSTALLATION

- Use the indoor unit wall plate as the installation plate.

- When installing the unit at a high level, be sure to fix the unit legs.

- Install the unit firmly, and do not apply stress to the pipes or wires.

4. CONNECTING WIRE SPECIFICATIONS

- Choose the correct type of wire for the installation.

- Route the wires properly to prevent damage.

5. AUTO RESTART FUNCTION

- This function allows the unit to restart automatically after a power outage.

- The unit restarts automatically when power is restored.

6. PIPING PREPARATION

- Use piping tape to secure the pipes.

- Place the drain hose below the refrigerant piping.

- Do not pull the hose to apply the tape.

7. INSTALLATION OF THE OUTDOOR UNIT

- Install the unit at a high level, and ensure proper ventilation.

- Use the rear part of the outdoor unit as the installation plate.

- Securely attach the outdoor unit to the installation plate.

8. ACCESSORIES

- Use the provided accessories to ensure proper installation.

- The quantity of accessories depends on the model.

9. IMPORTANT NOTES

- When installing the unit at a high level, be sure to fix the unit legs.

- Use the rear part of the outdoor unit as the installation plate.

- Securely attach the outdoor unit to the installation plate.

- Use the provided accessories to ensure proper installation.

10. OPERATING INSTRUCTIONS
