Introducing a new thinner and better insulating construction
**Multi Drawer Series**

**ENDLESS INTUITIVE FEATURES**

**Versa Drawer**
The Versa Drawer offers the ultimate functionality in preserving food quality without losing moisture and taste. The Versa Drawer has two main modes, Supercool Freezing and Soft Freezing, with the built in LED Sensor giving you the choice for hot freezing.

**Vegetable Drawer**
VitaLED lighting system slows down the wilting process, keeping fruit & vegetables crisper and fresher for longer. The vegetable drawer features a tray at the top which is ideal for storage and organisation of smaller items such as fruit.

**Freezer Drawer**
Divided by a Sliding Tray at the top that can be pushed back to reveal the rest of the freezer drawer. The Freezer Drawer is roomy enough to fit bulky items such as ice cream tubs, loaves of bread and frozen vegetables. The top tray is ideal for storage and organisation of flat pack items such as meat packs.

**Supercool Freezing**
Ensures food is frozen evenly, minimising cell destruction, preserving its freshness, texture and locking in maximum flavour.

**Automatic Ice Maker**
As there is no separate plumbing connection required, the fridge can be placed anywhere, not just near existing pipeworks. Simply fill the removable water tank and the Ice Maker is ready to go!

**Separable Shelf & Two Way Flexi & Glass Shelf**
This two part glass shelf slides back easily to halve its size, allowing taller items to be stored at the front of the refrigerator compartment. *(MR-WX743)*

**Smart Cube / VIP**
This design features highly advanced Vacuum Insulated Panel technology. This allows for maximum food storage while maintaining a slim, sleek profile.

**Energy Rating**
Achieving a 3.5 star energy rating, one of the highest for a refrigerator of this capacity (according to a comparison on energysaving.gov.au 08/04/2015). The higher the energy rating, the lower the power consumption costs will be over time.

**Supercool Chilling Case**
The Supercool chilling function is ideal for storing meat, fish, or other perishable food without freezing it, at about -3°C to 0°C. This provides the convenience of food ready to cook without the need to defrost it. *(MR-WX743)*
