Why Choose Mitsubishi Electric?

As a leading company in the industry, Mitsubishi Electric has a proud history in the manufacturing and supply of leading edge electrical and electronic equipment for both domestic and commercial use. Our efforts to make indoor life more comfortable began in 1921, with the introduction of our first electric fan which became an instant hit. Some 10 years later we began to manufacture coolers, which were just as popular.

Our commitment to quality service, research and development has helped us gain a leading position in today’s marketplace in a wide variety of areas including heating, cooling and air conditioning. Mitsubishi Electric’s ‘today technology’ provides climate controlled comfort wherever you live, work and relax.

Whether it’s consistent heating and cooling for the home or office, Mitsubishi Electric offers you state-of-the-art technology that is quiet, simple to use, reliable and above all, energy efficient.

Ultimate Comfort and Modern Design
Mitsubishi Electric clean and attractive air conditioners in a variety of designs to suit diversified needs; with stylish lines for the living room and quiet operation for the bedroom, our air conditioners provide advanced air control which is smart and sophisticated.

Energy Efficiency
Mitsubishi Electric strives for the perfect balance of performance, reliability, low power consumption and a long operational life span for all our products. The “3D i-See Sensor” sweeps from side-to-side automatically monitoring the floor temperature over a wide area spanning 150°. The airflow speed and temperature are adjusted to prevent over-heating/cooling, thereby eliminating the consumption of excessive electricity. (FH Model only)

Inverter Technology
Mitsubishi Electric inverter technologies ensure superior performance including the optimum control of operation frequency. Optimum power is applied in all heating/cooling ranges and maximum comfort is achieved while consuming minimal energy.

Flexible Choice
Mitsubishi Electric Air Conditioners from wall-mounted, floor-standing, ceiling-concealed, ceiling-cassette to ceiling suspended units are suitable for any needs.

Peace of Mind
Mitsubishi Electric Air Conditioners used in residential applications are covered by a full 5 year parts and labour warranty. Delivering optimum performance year in year out. See website for terms and conditions.

Economic Operation
Impressively low operating cost is a key advantage of inverter air cutting-edge electronics and mechanical technologies to achieve a synergistic effect that enables improvements in heating/cooling performance efficiency. Better performance and lower energy consumption are the result.

Quiet Operation
We recognise that noise affects comfort, so we constantly work to make our air conditioners as quiet as possible. With improvements to our fan blades combined with a new grille shape to our outdoor unit it’s even quieter when in low noise mode. We want you to feel the warmth, not hear it.

*1 Multi Series connection only.
*2 Additional adapter MAC-558IF-E required.
The new FH series is the culmination of our air-cleaning, 3D i-See sensor and airflow technologies, and represent our efforts to create an air conditioner that put No.1 Priority on healthy living.

FH FEATURES

- Absence Detection
- Econo Cool
- Auto Vane
- Anti-Mould Filter
- Pure White
- Compact
- 24 Hour Timer
- Auto Restart
- Quick Clean
- Weekly Timer
- Operating Temperature
  - Cooling at -1ºC ~ -46ºC
  - Heating at -15ºC ~ 24ºC
- Vertical & Horizontal Swing
- Auto Change Over
- 3D i-See Sensor
- Direct/Indirect Airflow
- Natural Flow
- Plasma Filter
- Indirect / Direct Airflow
- The indirect airflow setting can be used when the flow of air feels too strong or direct. For example, it can be used during cooling to avoid airflow and prevent body temperature from becoming excessively cooled.
- Dual Split Vane Technology
- The unique dual split vane design allows airflow to be customised to suit different areas of the room, by independently directing air upwards, downwards or to the side.
- Indirect Airflow
- This setting can be used to directly target airflow at people such as for immediate comfort when coming indoors on a hot (cold) day.
- Direct Airflow
- This setting can be used when the flow of air feels too strong or direct. For example, it can be used during cooling to avert airflow and prevent body temperature from becoming excessively cooled.
- Plasma Filter System
- The Plasma Filter System is an advanced, multi-stage filtration system designed to effectively neutralize contaminants such as allergens, viruses and bacteria, ensuring the circulation of fresh, clean air back into the room.
- 3D i-See Sensor
- The FH Series is equipped with 3D i-See Sensor, an infrared-ray sensor that measures the temperature at distant positions. While moving to the left and right, eight vertically arranged sensor elements analyze the room temperature in three dimensions.
- Dual Split Vane Technology
- The unique dual split vane design allows airflow to be customised to suit different areas of the room, by independently directing air upwards, downwards or to the side.
- Natural Flow
- To create “healthy” airflow, the most important aspect is that the flow of air feels natural. Mitsubishi Electric’s solution to this is Natural Flow, only possible thanks to our technology that freely and flexibly controls airflow.
- Quiet Operation
- We recognise that noise affects comfort, so we constantly work to make our air conditioners as quiet as possible. With improvements to our fan blades combined with a new grille shape to our outdoor unit it’s even quieter when in low noise mode. We want you to feel the warmth, not hear it.
- Energy Efficient
- Impressively low power consumption and quiet yet powerful performance. Ensuring maximum room and energy savings, thereby eliminating the consumption of excessive electricity.
- Wi-Fi Control
- Unlock the door to smarter cooling and heating for total home comfort. You can control and monitor your air conditioner from anywhere anytime via your smartphone, tablet or online account. Additional adapter MAC-558IF-E required per unit.

MSZ-FH25VE-A1
- Cooling Capacity: 2.5kW (min 1.4kW~max 3.5kW)
- Cooling Efficency-EER: 4.90/AEER: 4.60
- Heating Capacity: 3.2kW (min 1.8kW~max 5.5kW)
- Heating Efficiency-COP: 5.52/ACOP 5.21

MSZ-FH35VE-A1
- Cooling Capacity: 3.5kW (min 0.8kW~max 4.0kW)
- Cooling Efficency-EER: 4.07/AEER: 3.92
- Heating Capacity: 4.0kW (min 1.0W~max 6.3kW)
- Heating Efficiency-COP: 5.00/ACOP 4.80

MSZ-FH50VE-A1
- Cooling Capacity: 5.0kW (min 1.9kW~max 6.0kW)
- Cooling Efficency-EER: 3.62/AEER: 3.54
- Heating Capacity: 6.0kW (min 1.7W~max 8.7W)
- Heating Efficiency-COP: 4.05/ACOP 3.96

SMALL ROOMS
- Dimension: (w) 895 x (d) 195 x (h) 299 mm

MEDIUM ROOMS
- Dimension: (w) 895 x (d) 195 x (h) 299 mm
The Streamlined wall-mounted indoor units have eloquent beveled edges, expressing sophistication and quality. Available in 3 stylish colours classic white, matte silver and glossy black to provide the best match scenario for diverse interior designs while simultaneously ensuring maximum room comfort and energy savings.

**EF FEATURES**

- **Econo Cool**
- **Nano Platinum Filter**
- **Auto Restart**
- **Weekly Timer**
- **Operating Temperature**
- **Self Diagnosis**
- **Auto Change Over**

**Platinum Filter**

The Nano Platinum Deodorising Filter reduces airborne bacteria while improving air quality. The optional Electro Static Anti-Allergy Enzyme Filter effectively combats common allergens.

**Energy Efficient**

Impressive low power consumption and quiet yet powerful performance. Ensuring maximum room and energy savings. Therafter eliminating the consumption of excessive electricity.

**Wi-Fi Control**

Unlock the door to smarter cooling and heating for total home comfort. You can control and monitor your air conditioner from anywhere anytime via your smartphone, tablet or online account. Additional adapter MAC-558IF-E required per unit.

**Low Stand-by Power**

Electrical devices consume stand-by power even when they are not in actual use. While we obviously strive to reduce power consumption during actual use, reducing this wasted power that cannot be seen is also very important.

**Quiet Comfort All Day**

Mitsubishi Electric’s advanced “Quiet Mode” fan speed setting provides super-quiet operation as low as 21dB for 25/35 models. This unique feature makes the MSZ-EF series ideal for use in any situation.

**Effective**

Impressive durability and efficiency.

**Stylish Design**

Developed to complement modern interior room decor. MSZ-EF Series is available in three colours glossy black, matte silver and classic white. Specially chosen to blend in naturally wherever installed.

**EF Series units are available in:**

- **Black**
- **Silver**
- **White**
The MSZ-GE units provide excellent energy-savings and operation is impressively quiet. A vast series line-up is ready to ensure comfortable room environments in response to your air conditioning needs.

### MSZ-GE25VAD
- **Cooling Capacity:** 2.5kW (min 1.1kW~max 3.5kW)
- **Cooling Efficiency-EER:** 4.46/AEER:4.21
- **Heating Capacity:** 3.2kW (min 1.3kW~max 4.1kW)
- **Heating Efficiency-COP:** 4.38/ACOP 4.19

### MSZ-GE35VAD
- **Cooling Capacity:** 3.5kW (min 1.1kW~max 4.0kW)
- **Cooling Efficiency-EER:** 3.80/AEER:3.67
- **Heating Capacity:** 4.0kW (min 1.6kW~max 5.3kW)
- **Heating Efficiency-COP:** 4.04/ACOP 3.91

### MSZ-GE42VAD
- **Cooling Capacity:** 4.2kW (min 0.9kW~max 4.8kW)
- **Cooling Efficiency-EER:** 3.33/AEER:3.25
- **Heating Capacity:** 5.4kW (min 1.4kW~max 6.0kW)
- **Heating Efficiency-COP:** 3.51/ACOP 3.43

### MSZ-GE50VAD
- **Cooling Capacity:** 4.8kW (min 1.4kW~max 5.4kW)
- **Cooling Efficiency-EER:** 3.24/AEER:3.17
- **Heating Capacity:** 5.8kW (min 1.4kW~max 7.2kW)
- **Heating Efficiency-COP:** 3.52/ACOP 3.44

### MSZ-GE60VAD
- **Cooling Capacity:** 6.0kW (min 1.5kW~max 7.5kW)
- **Cooling Efficiency-EER:** 3.13/AEER:3.07
- **Heating Capacity:** 6.80kW (min 2.0kW~max 9.3kW)
- **Heating Efficiency-COP:** 3.53/ACOP 3.50

### MSZ-GE71VAD
- **Cooling Capacity:** 7.1kW (min 2.4kW~max 8.7kW)
- **Cooling Efficiency-EER:** 3.17/AEER:3.14
- **Heating Capacity:** 7.8kW (min 2.2kW~max 11.1kW)
- **Heating Efficiency-COP:** 3.55/ACOP 3.50

### MSZ-GE80VAD
- **Cooling Capacity:** 7.8kW (min 2.4kW~max 9.2kW)
- **Cooling Efficiency-EER:** 3.17/AEER:3.14
- **Heating Capacity:** 9.0kW (min 2.2kW~max 11.1kW)
- **Heating Efficiency-COP:** 3.55/ACOP 3.50

### SMALL ROOMS
- Dimension: (w) 798 x (d) 232 x (h) 295 mm

### MEDIUM ROOMS
- Dimension: (w) 798 x (d) 232 x (h) 295 mm

### LARGE ROOMS
- Dimension: (w) 1100 x (d) 238 x (h) 325 mm

**Stylish and Compact**
An elegant, high quality look is achieved through the stylish design adopted for indoor units. The simple, pure white colour expresses a sense of sophistication that matches well with virtually any interior décor.

**Quiet Operation**
A “Quiet Mode” setting has been added to the fan speed settings, ensuring super quiet operation below 19dB for model sizes 35 and under. Perfect for the bedroom; it’s so quiet you’ll check to see if it’s on. (models 25/35)

**Wide Airflow**
The wide and long airflow modes allow the airflow direction to be adjusted, ensuring every corner of the room is comfortable. These modes are simply activated at the touch of a button on your remote controller. (models 60/71/80)

**Long Airflow**
The long mode extends airflow by 12m to reach even the furthest point of large living rooms or enables kitchens to be reached in an open plan environment. (models 60/71/80)

**Wi-Fi Control**
Unlock the door to smarter cooling and heating for total home comfort. You can control and monitor your air conditioner from anywhere anytime via your smartphone, tablet or online account. Additional adapter MAC-558IF-E required per unit.

**i-Save mode**
-i-Save is a simplified setting function that recalls the preferred (preset) temperature by pressing a single button on the remote controller. Press the same button twice to immediately return to the previous temperature setting. Using this function contributes to energy savings when, for example, leaving the room or going to bed.

**GE FEATURES**
- Potentially Demand Response Capable
- Econo Cool
- Nano Platinum Filter
- Electrostatic Anti-Allergy Filter
- Auto Vane
- Vertical Swing
- Horizontal Swing
- Wide, Long & Powerful
- Pure White
- Auto Change Over
- Auto Restart
- Only 19dB (models 25/35)
- 24 Hour Timer
- Weekly Timer 60/70/80
- Self Diagnosis
- Operating Temperature Cooling at -10°C ~ -46°C Heating at -15°C ~ 24°C
MFZ Series
FLOOR STANDING UNIT

High Capacity, Simple, Flat Design in Harmony with Living Spaces Raise the value of your room to the next level.

MFZ FEATURES

- Only 19dB (KJ 25/35)
- Econo Cool
- Anti-Allergy Enzyme (Standard Filter)
- Horizontal Auto Vane
- Horizontal Swing
- Pure White
- Built-In Weekly Timer
- 24 Hour Timer
- Auto Restart
- Cooling at -10°C~46°C
- Heating at -15°C~24°C
- Self Diagnosis
- Failure Recall
- Vertical Airflow
- Easy Installation (with leveling plate)

Rapid Heating Technology
MFZ Series ensures the perfect room temperature is reached faster with Rapid Heating Technology. Warm air is blown out in a downward direction and then sucked back into the unit to quickly raise the temperature of the air being blown out.

Slim, Sophisticated Design
Floor Consoles feature a new contemporary sleek design with linear beauty, harmonized with all types of interiors.

Multi Flow Vane
A Powerful blower provides optimum distribution of air from the upper and lower air outlets. The result is a comfortable environment with an even temperature throughout the room. Three uniquely shaped vanes control the airflow and allow the freedom to customize comfort according to preferences.

Wi-Fi Control
Unlock the door to smarter cooling and heating for total home comfort. You can control and monitor your air conditioner from anywhere anytime via your smartphone, tablet or online account. Additional adapter MAC-558IF-E required per unit.

SMALL ROOMS

Dimension: (w) 750 x (d) 215 x (h) 600 mm

MFZ-KJ25VE
Cooling Capacity: 3.5kW (min 0.5kW~max 3.4kW)

MEDIUM ROOMS

Dimension: (w) 750 x (d) 215 x (h) 600 mm

MFZ-KJ50VE
Cooling Capacity: 5.0kW (min 1.6kW~max 5.7kW)
Cooling Efficiency-EER: 3.57/AEER:3.57
Heating Capacity: 5.8kW (min2.2W~max8.2kW)
Heating Efficiency-COP: 3.87/ACOP 3.86

SMALL ROOMS

Dimension: (w) 750 x (d) 215 x (h) 600 mm

MFZ-KJ25VE
Cooling Capacity: 2.5kW (min 0.5kW~max 3.4kW)
Cooling Efficiency-EER: 4.63/AEER:4.62
Heating Capacity: 3.4kW (min1.2kW~max3.8kW)
Heating Efficiency-EER: 3.87/ACOP 3.86

MFZ-KJ35VE
Cooling Capacity: 3.5kW (min 0.5kW~max 3.7kW)
Cooling Efficiency-EER: 3.89/AEER:3.88
Heating Capacity: 4.3kW (min1.2W~max5.8kW)
Heating Efficiency-COP: 3.91/ACOP 3.90

i-Save mode
"i-Save" is a simplified setting function that recalls the preferred (preset) temperature by pressing a single button on the remote controller. Press the same button twice to immediately return to the previous temperature setting. Using this function contributes to energy savings when, for example, leaving the room or going to bed.

CONTROL

Easy Installation (with leveling plate)
SLZ Series
CEILING-CASSETTE

Our compact, lightweight ceiling cassette units with 4-way airflow provide maximum comfort by evenly distributing airflow throughout the entire room.

---

SEZ Series
CEILING-CONCEALED

Our concealed-ceiling unit has a reduced installation space height with impressively quiet operation. Comfortable operation for the living room, bedroom and other living spaces.

---

**SLZ FEATURES**

- PAM Control
- Vertical Swing
- 12 Hour Timer (SLZ-KA VAL)
- Auto Restart
- Heating at -15°C~24°C
- Self Diagnosis (with wired R/C check code)
- Optional M-NET Connection
- Optional Wi-Fi Control

**SEZ FEATURES**

- Auto Restart
- Cooling at -10°C~46°C (KA25/35)
- Weekly Timer (SEZ-WAQ)
- Optional M-NET Connection
- Optional Wi-Fi Control
- Flare Connection
- Failure Recall
- Self Diagnosis (with wired R/C check code)

---

**SLZ-KA25VA**

- Cooling Capacity: 2.3kW (min 0.9kW~max 3.2kW)
- Heating Capacity: 3.1kW (min 0.9kW~max 4.5kW)

**SLZ-KA50VA**

- Cooling Capacity: 4.2kW (min 1.1kW~max 5.2kW)
- Heating Capacity: 4.5kW (min 0.9kW~max 6.5kW)

---

**SEZ-KD50VA**

- Cooling Capacity: 5.1kW (min 1.1kW~max 5.6kW)
- Heating Capacity: 6.4kW (min 1.1W~max 7.2kW)

**SEZ-KD71VA**

- Cooling Capacity: 6.5kW (min 0.9kW~max 8.3kW)
- Heating Capacity: 8.1kW (min 0.9W~max 10.4kW)

---

Air Cleaning Filter
This built-in filter removes dust and other particulates, keeping the air purified and deodorised. The long-life filter in SLZ Series air conditioners can be used for approximately 2,500 hours with simple maintenance.

Compact Design
A design that is a perfect match for ceilings made using 2"x2" construction. The 4-way air outlet provides maximum comfort with evenly distributed airflow.

Quiet Operation
Offering whisper-quiet operation at a hushed noise level of 23dB (SEZ-KD25/35), creating a calm and comfortable environment. So quiet you'll check to see if they're on.

Compact Ceiling-Concealed Units
With a slim size of 200mm the concealed unit fits easily and discreetly into ceiling spaces. Allowing you to create a highclass interior.

**MXZ-VA Series**

**MULTI ROOM SYSTEM**

For saving the space, the MXZ Series can be connecting multiple indoor units to a single outdoor unit and enhancing exterior aesthetics.

**Controls**

**HANDHELD CONTROLLERS & WALL MOUNTED CONTROLS**

Making the most out of your air conditioner all starts with the controls, these allow you to create the comfort levels that match your demands.

As air conditioners are becoming more advanced, so are the controls, to allow accuracy and ease of use to maximise the functionality of your air conditioner. The availability of handheld controllers, wired wall mounted controller PAR-31MAA and Wi-Fi Control not only provide you with a wide variety of choice, but also allow optimised programming efficiency.

**24 Hour Controller**

This simple to use remote controller features a 24 hour timer, an easy to read display and variety of operating modes at the touch of a button. An On/Off timer allows users to set operating times on a daily basis. The 'i-Save' mode recalls the present temperature. This remote is standard for the GE25/35/42/50 series.

**PAC-YT52CRA Controller**

To simplify operation of the system, the range of controls has been limited to On/Off, mode, room temperature, fan speed and additional vane control for high walls, cassettes, and under ceilings units. The ability to sense the room ambient via the inbuilt thermostat. This means you are sensing the actual space temperature where the end user is.

**Weekly Remote Controller**

With an easy to read display and a variety of operating modes at the touch of a button. This controller features a weekly and 24 hour timer, On/Off timer to set operating times on a daily basis. The 'i-Save' mode recalls the preset temperature. This remote is standard for the GE60/71/80 Series, EF series and FH series.

**7 Day Wired Controller**

The wall mounted 7 day controller is an optional upgrade with the ability to connect to all Mitsubishi Electric systems listed in this brochure. The PAR-31MAA Controller allows you to program up to 8 stop/start patterns per day for up to 7 days at a time.

Additional adapter MAC-333IF required.
Wi-Fi Control

Wi-Fi Control unlocks the door to smarter heating or cooling, for total home comfort wherever you are.

This innovative technology connects your domestic high wall, floor mounted and ducted air conditioner to your smartphone, tablet or online account, giving you the freedom to fully control each unit on-the-go via an internet connection from anywhere in the world.

Additional adapter MAC-558IF-E required per unit.

Superior Customisation

This innovative technology places multiple functions of your air-conditioner at your fingertips. Turning the unit ON/OFF, adjusting set temperature, changing mode, fan speed and airflow direction are all possible.

Develop Operating Rules

Tailor your system to always meet your needs. Unlock the full potential of your air-conditioner; program your system to automatically turn on/off at specific times, change settings, and develop temperature rules to ensure superior comfort day after day.

Control Multiple Units

Customise the settings of each air-conditioner in your home. Purchase multiple adaptors to manage all air-conditioners independently on the same account to ensure complete control over your system. The result is a tailored system to your needs.

Optional upgrade adapter required.

Wi-Fi FEATURES

- View & control from anywhere in the world

* The figures listed in the table are only when combined with an outdoor unit with the appropriate capacity range.
* Optional: Separate parts must be purchased.
FUNCTIONS

Energy Saving

3D i-See Sensor
The “3D i-See Sensor” monitors the whole room in sections and directs the airflow to areas of the room where the temperature does not match the temperature setting. (When cooling the room, if the middle of the room is detected to be hotter, more airflow is directed towards it.) This eliminates unnecessary heating/cooling and contributes to lower electricity costs.

DC Inverter
Inverter technology matches compressor speed to your indoor heating or cooling requirements. PAM (Pulse Amplitude Modulation) provides higher efficiency within the inverter by controlling the amount of power drawn.

Econo Cool Energy-saving Feature
“Econo Cool” is an intelligent temperature control feature that adjusts the amount of air directed towards the body based on the air-outlet temperature. The setting temperature can be raised by as much as 2 degrees without any loss in comfort, thereby realising a 20% gain in energy efficiency. (Function only available during manual cooling operation.)

“i-Feel” Control
The “i-Feel” fuzzy-logic control memorises the most desirable temperature setting. If the “TOO WARM” or “TOO COOL,” button on the remote controller is pressed, the system adds the choice to the control memory and adjusts the temperature so that the most comfortable temperature is provided. That temperature setting is used the next time the unit is turned on.

PAM (Pulse Amplitude Modulation)
PAM is a technology that controls the current waveform so that it resembles the supply voltage wave, thereby reducing loss and realising more efficient use of electricity. Using PAM control, 98% of the input power supply is used effectively.

Comfort

Auto Vane
The vane closes automatically when the air conditioner is not running, concealing the air outlet and creating a flat surface that is aesthetically appealing.

Only 19dB (Quiet Operation) GE25/35

Swing (Vertical Vane)
The air outlet vane swings from side to side so that the airflow reaches every part of the room.

Swing (Horizontal Vane)
The air outlet vane swings up and down so that the airflow is spread evenly throughout the room.

Wide and Long Airflow
The wide and long airflow function is especially beneficial for large spaces, helping to ensure that air is well circulated and reaches every corner of the room.

Wide Airflow
This unique airflow system distributes air horizontally over a wide-ranging 150° in heating mode and 100° in cooling mode. Simply press the Wide Swing icon on the remote controller to select the desired airflow from seven different patterns.

Long Airflow
Use this function to ensure that the airflow circulates to areas far across the room. Press the Long Swing icon on the remote controller to reach up to as far as 12 metres from the unit.

Air Quality

Air Cleaning Filter
The filter is charged with static electric energy, enabling it to attract and capture dust particles that regular filters don’t.

Anti-Allergy Enzyme Filter
The anti-allergy enzyme filter works to trap allergens such as molds and bacteria and decompose them using enzymes retained in the filter.

Catechin Filter
Catechin is a bioflavonoid by-product of green tea with both antiviral and antioxidant qualities. It also has an excellent deodorising effect, which is why Mitsubishi Electric uses the compound in its air conditioner filters. Using PAM technology, it prevents the spreading of bacteria and viruses throughout the room. Easily removed for cleaning and maintenance, when the filter is washed regularly, the deodorising action is rated to last more than 10 years.

Electrostatic Anti-allergy Enzyme Filter
This function allows the entire air conditioning filter and anti-allergy enzyme filter.

Fresh-Air Intake
Indoor air quality is enhanced by the direct intake of fresh exterior air.

Nano Platinum Filter
The filter has a large capture area and incorporates nanometre-sized platinum-ceramic particles that work to kill bacteria and deodorise the circulating air. Better dust collection than conventional filters is also ensured.

Plasma Duo

Plasma Duo
The plasma air cleaning and plasma purification functions (Plasma Duo) use plasma air cleaning and plasma purification functions (Plasma Duo). The plasma system removes bad odours and bacterial particulates of the input power supply is used effectively.

Fresh-Air Intake
Indoor air quality is enhanced by the direct intake of fresh exterior air.

Nano Platinum Filter
The filter has a large capture area and incorporates nanometre-sized platinum-ceramic particles that work to kill bacteria and deodorise the circulating air. Better dust collection than conventional filters is also ensured.

Plasma Duo

Plasma Duo
The plasma air cleaning and plasma purification functions (Plasma Duo) use plasma air cleaning and plasma purification functions (Plasma Duo). The plasma system removes bad odours and bacterial particulates of the input power supply is used effectively.

Convenience

Ampere Limit Adjustment
Dipswitch settings can be used to adjust the maximum electrical current for operation. This function is highly recommended for managing energy costs. Maximum capacity is lowered with the use of this function.

Auto Changeover
The air conditioner automatically switches between heating and cooling modes to maintain the desired temperature.

Auto Restart
Especially useful at the time of power outages, the unit turns back on automatically when power is restored.

Auto Fan Speed Mode
The airflow speed mode adjusts the fan speed of the indoor unit automatically according to the present room conditions.

“i-Save” Mode
“i-Save” is a simplified setting function that recalls the preferred setting of the previous temperature setting. (Depending on the unit combination, connection of up to four units is possible.)

Auto Changeover
The air conditioner automatically switches between heating and cooling modes to maintain the desired temperature.

Low-Temperature Cooling
Intelligent fan speed control in the outdoor unit ensures optimum performance even when the outside temperature is low.

On/Off Operation Timer
Use the remote controller to set the times for the air conditioner to turn on/off.

Operation Lock
To accommodate specific-use applications, cooling or heating operation can be specified when setting the control board of the outdoor unit. A convenient option when a system needs to be configured for exclusive cooling or heating service.

System Control

COMPO (Simultaneous Multi-unit Operation)
Multiple indoor units can be connected to a single outdoor unit. (Depending on the unit combination, connection of up to four units is possible; however, all indoor units must operate at the same settings.)

M-Net Connection
Units can be connected to MELANS system controllers (M-Net controllers) such as the AG-150A.

MXZ Connection
Connection to the MXZ multi-split outdoor unit is possible.

PAR-31MAA Control
Units are compatible for use with the PAR-31MAA remote controller, which has a variety of management functions including a weekly timer.

Installation & Maintenance

Cleaning-Free Pipe Reuse
The application of pipe reuse technology such as Mitsubishi Electric’s original hard alloy/brazing oil makes it possible to reuse the same piping, thereby allowing cleaning-free renewal of air conditioning systems that use R22 refrigerant.

Easy Installation with an Installation Plate

Failure Recall Function
Operation failures are recorded, allowing confirmation when needed.

Flare Connection
Flare connection to cooling pipe work is possible.

Quick Clean
The cover panel can be quickly removed for cleaning and the airflow outlet and creating a flat surface that is aesthetically appealing.

Only 19dB (Quiet Operation) GE25/35

Swing (Vertical Vane)
The air outlet vane swings from side to side so that the airflow reaches every part of the room.

Swing (Horizontal Vane)
The air outlet vane swings up and down so that the airflow is spread evenly throughout the room.
