L4 GLASS SERIES FRENCH DOOR
PRODUCT FLYER

L4 Glass Series

FRENCH DOOR

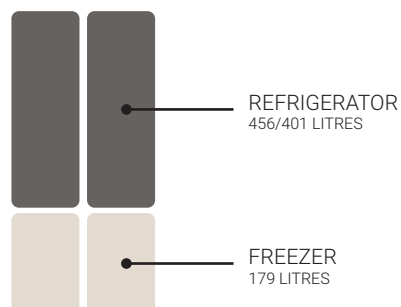

The new L4 Glass Series is designed for larger living and now features an Automatic Ice Maker that doesn't require plumbing connection. The toughened glass front panels present a luxurious finish.

The L4 Mini Glass (580L) is designed with a reduced height, to easily fit into a French Door cavity with overhead cupboards. The easy-to-use LED Touch Panel features three smart operation modes so that the refrigerator can perform optimally, in line with the user's needs.

- » Door Alarm

MR-LA635ER-GBK

MR-LA580ER-GSL

Designed for larger living

Providing more usable space for items such as bulky groceries and platters.

Automatic Ice Maker

There is no need for a separate plumbing connection. The removable water tank can be filled with water and all the parts are completely washable.

Vegetable Crisper

Designed to store fruit and vegetables. Some require more humidity than others, that is why the humidity controls will help to regulate the amount of moisture in the crisper.

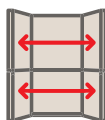

Touch Control Panel

Featuring three smart operation modes - including Eco Mode, an energy saving setting which automatically adjusts the temperature, and Rapid Cool or Freeze which cools quickly to preserve the freshness of food.

Multi Airflow System

With 6 different temperature points in the fridge, this technology efficiently cools all food, even in hard-to-cool places such as filled door pockets.

Large Capacity

The French Door design delivers a wide internal space, perfect for large platters and maximising storage capacity.

Large Bottle Pockets

The smart big bottle door pocket is designed for convenient storage and retrieval of large and small bottles.

Glass Door Finish

Toughened glass front panels present a luxurious finish that are easy to keep clean.
