A Life More Electric

U Series

Upright Freezer

The vertical freezer from Mitsubishi Electric is the next step in home organisation and food storage.

Featuring a two-door design, as well as built-in door handles, the MF-U218ET was made to maximise space at home - whether kept in the garage, the laundry, or a butler's pantry.

Key Features

Two-Door Design

Helps reduce the loss of cold airflow when opening each door, resulting in a better cooling efficiency. Better for organisation - the upper freezer section can be used for everyday food, including ready meals, while the lower section for long term storage (like frozen vegetables).

Built-In Door Handles

Say goodbye to handles protruding from the surface and hello to a sleek and streamlined design. This helps save even more space, especially in smaller areas where every millimetre counts. Get the most out of your space with this smart and functional feature.

Compact Dimensions

Designed with smaller spaces in mind including small kitchens, butler pantries, garages and laundries. Large capacity despite its compact and slim dimensions.

Rapid Freeze

To freeze items quickly, simply press the "Rapid Freeze" button to activate the fast-freeze cycle. The movable Aluminium tray helps to cool down and freeze items even faster.

Adjustable Glass Shelf

The bottom tempered glass shelf can be moved up and down, making it ideal for accommodating taller items. Upgrade your storage space with this easy-to-use feature.

Dual LED Light

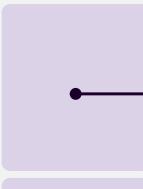

The LED lights will illuminate when opening the upper or lower door - which can help visibility in darker spaces.
