A Life More Electric

Product shown is MR-LX564ER-GWH

LX Series

French Door

The first thing you notice about the LX Series is its striking looks with toughened glass front panels, presenting a luxurious finish. French doors open up to reveal a wide internal space, perfect for large platters and ensuring maximum storage capacity. Convenient features include separate vegetable and freezer drawers, an automatic ice maker that doesn't require plumbing and a Supercool chilling case for storing items at about -3°C to 0°C without freezing it.

Key Features

Supercool Chilling Case

The Supercool chilling function is ideal for storing meat, fish, or other perishable food without freezing it. This provides the convenience of food ready to cook without the need to defrost it.

Vegetable Drawer with VitaLED

Designed to maximise the freshness of produce. The drawer features a higher humidity than the main refrigerator compartment and is ideal for storing and keeping fruit and vegetables crisper and fresher for longer.

Automatic Ice Maker

There is no need for a separate plumbing connection. The removable water tank can be filled with water and the Ice Maker is ready to go!

Endless Intuitive Features^{*1}

A unique LED control panel lights up with just a touch to provide access to all the settings.

*1 MR-LX564ER feature only.
