A Life More Electric

Freshness that brings food to life

Mitsubishi Electric has been an integral part of Australian kitchens for more than 30 years, providing high-quality, innovative appliances that serve as fixtures in this important space.

We pride ourselves on understanding the Australian household and delivering products tailored to meet their needs.

#ALifeMoreElectric

Refrigeration Range

Designed specifically for those that care about preserving the quality and freshness of all kinds of food.

WX Series

Multi Drawer

The innovative Vacuum Insulation Panel (VIP) and Smart Cube technologies maximise the WX Series capacity without increasing its dimensions. The luxurious glass door finish enhances the modern design.

Available in 700 and 470 litres, catering for various kitchen sizes. The MR-WX470F is designed with a reduced height and width, to easily fit into a compact fridge cavity of 660mm width.

Key Features

Supercool Chilling Case

The Supercool chilling function is ideal for storing meat, fish, or other perishable food, at approximately -3°C to 0°C without freezing it. This provides the convenience of food ready to cook, reducing the need to defrost it.

Automatic Ice Maker

There is no need for a separate plumbing connection. The removable water tank can be filled with water and all the parts are completely washable.

Vegetable Drawer

VitaLED lighting system slows down the wilting process, keeping most fruit and vegetables crisper and fresher for longer. The vegetable drawer features a tray at the top which is ideal for storage and organisation of smaller items.

Clean Tray^{*2}

The Clean Tray was designed to keep the vegetable drawer clean with an anti-bacterial hybrid nano coating.^{*3} The Clean Tray is also treated with a coating which makes it easy to wipe and clean even when it is stained.

^{*1} Refer to page 25 for details.

^{*2} MR-WX700C feature only.

^{*3} Tested in accordance with JIS Z 2801:2010

MR-WX700C-S

Supercool Freezing Drawer

The Supercool Freezing Drawer offers functionality in preserving food quality without losing moisture and freshness. It has two main modes, Supercool Freezing and Hot Freezing.*1

Hot Freezing*2

The LED Sensor is designed to detect hot food up to 80°C and adjust the cold air flow directly onto the hot food. This saves time while also preserving food quality and freshness.

Soft Freezing*1

Soft Freezing allows most food to be frozen for approximately two to three weeks*3 in a 'soft' state. This means meat can be more easily cut without thawing.

Supercool Freezing*4

Ensures food is frozen evenly, minimising cell destruction, preserving its freshness, texture and locking in maximum flavour.

*1 Soft Freezing mode must first be enabled.

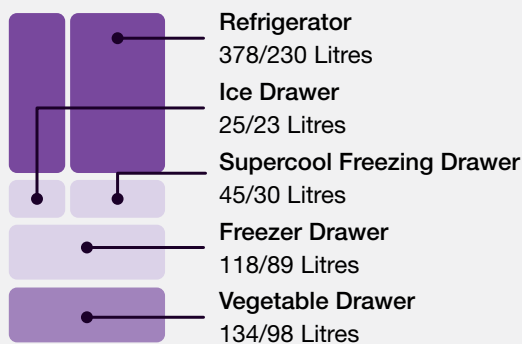

*2 Hot Freezing mode will automatically revert to Soft Freezing mode after about 9 hours.

*3 The preservation period varies depending on the type of food and its condition when it is placed inside.

*4 Supercool Freezing mode will automatically revert to Soft Freezing mode after about 8 hours.

LX Series

French Door

The first thing you notice about the LX Series is its striking looks with toughened glass front panels, presenting a luxurious finish. French doors open up to reveal a wide internal space, perfect for large platters and ensuring maximum storage capacity. Convenient features include separate vegetable and freezer drawers, an automatic ice maker that doesn't require plumbing and a Supercool chilling case for storing items at about -3°C to 0°C without freezing it.

Key Features

Supercool Chilling Case

The Supercool chilling function is ideal for storing meat, fish, or other perishable food, at approximately -3°C to 0°C without freezing it. This provides the convenience of food ready to cook, reducing the need to defrost it.

Automatic Ice Maker

There is no need for a separate plumbing connection. The removable water tank can be filled with water and the Ice Maker is ready to go!

Vegetable Drawer with VitaLED

Designed to maximise the freshness of produce. The drawer features a higher humidity than the main refrigerator compartment and is ideal for storing and keeping most fruit and vegetables crisper and fresher for longer.

Endless Intuitive Features^{*2}

A unique LED control panel lights up with just a touch to provide access to all the settings.

^{*1} Refer to page 25 for details.

L4 Glass Series

French Door

The L4 Glass Series is designed for larger living and features an Automatic Ice Maker that doesn't require plumbing connection. The luxurious toughened glass front panels are easy to keep clean.

The L4 Mini Glass (580L) is designed with a reduced height, to easily fit into a French Door cavity with overhead cupboards. The easy-to-use LED Touch Panel features three smart operation modes so that the refrigerator can perform optimally, in line with the user's needs.

Key Features

Touch Control Panel

Featuring three smart operation modes - including Eco Mode, an energy saving setting which automatically adjusts the temperature, and Rapid Cool or Freeze which cools quickly to preserve the freshness of food.

Automatic Ice Maker

There is no need for a separate plumbing connection. The removable water tank can be filled with water and all the parts are completely washable.

Large Capacity

The French Door design delivers a wide internal space, perfect for large platters and maximising storage capacity.

Vegetable Crisper

Designed to store most fruit and vegetables. Some require more humidity than others, that is why the humidity controls will help to regulate the amount of moisture in the crisper.

Multi Airflow System

With 6 different temperature points in the fridge, this technology efficiently cools all food, even in hard-to-cool places such as filled door pockets.

Large Bottle Pockets

The smart big bottle door pocket is designed for convenient storage and retrieval of large and small bottles.

HGS Glass Series

Bottom Mount

Combining style and functionality for the modern home, the HGS Glass Series bottom mount fridge has a unique 50:50 door design which is more aligned with standard Australian kitchen benchtops.

It features a sleek glass front door, a customisable zone for soft freezing or chilling, an automatic ice maker, and a Fresh Box with VitaLED.

Key Features

Automatic Ice Maker

There is no need for a separate plumbing connection. The removable water tank can be filled with water and the Ice Maker is ready to go!

Select Zone

Features two main modes: Soft Freezing and Chilling, with 4 temperature settings, ranging from approximately -9°C to 0°C.

Chilling is ideal for storing foods like sausages, deli meats and cheese, and Soft Freezing keeps most food 'softly' frozen.

Blue Catalyst Deodoriser

A fridge that smells clean and fresh! The Blue Catalyst Deodoriser has an inorganic antibacterial which helps reduce any odours.

Fresh Box VitaLED

Avoid food wastage and properly store your produce with the VitaLED - it slows down the wilting process, keeping most fruits and vegetables crisp and fresher for longer.

Soft Freezing

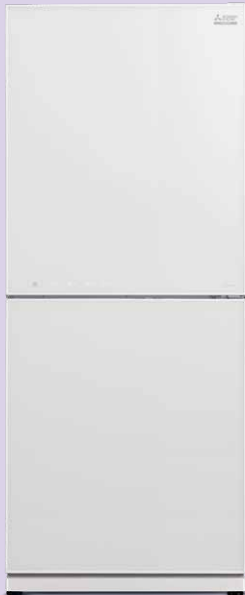

Available in the Select Zone, soft freezing allows food to be frozen for up to three weeks in a 'soft' state at about -7° C. This means food, like most meat and sauces, can be more easily cut, divided or scooped without thawing.

50:50 Door Design

A premium look for a modern kitchen - the 50:50 design integrates into most existing cabinets and aligns with standard kitchen benchtops (900mm).

HS Steel Series

Bottom Mount

Crafted to blend style and utility in contemporary households, the HS Steel Series bottom mount fridge has a distinctive 50:50 door design which is more aligned with standard Australian kitchen benchtops.

Featuring a customisable zone for soft freezing or chilling, an automatic ice maker, and a Fresh Box with VitaLED, it combines convenience and sophistication for the modern home.

Key Features

50:50 Door Design

A premium look for a modern kitchen - the 50:50 design integrates into most existing cabinets and aligns with standard kitchen benchtops (900mm).

Select Zone

Features two main modes: Soft Freezing and Chilling, with 4 temperature settings, ranging from approximately -9°C to 0°C.

Chilling is ideal for storing foods like sausages, deli meats and cheese, and Soft Freezing keeps most food 'softly' frozen.

Fresh Box VitaLED

Avoid food wastage and properly store your produce with the VitaLED - it slows down the wilting process, keeping most fruits and vegetables crisp and fresher for longer.

CGX Glass Series

Bottom Mount

The CGX Glass Series bottom mount fridge is the ultimate in innovation with its unique 3 door design and glass front door. It is designed with a reduced width, perfect for smaller fridge cavity space, and features a vegetable drawer, an automatic ice maker, a supercool chilling case, and a convenient freezer drawer.

Key Features

Vegetable Drawer with VitaLED

Designed to maximise the freshness of produce. The drawer features a higher humidity than the main refrigerator compartment and is ideal for storing and keeping most fruit and vegetables crisper and fresher for longer.

Automatic Ice Maker

There is no need for a separate plumbing connection. The removable water tank can be filled with water and the Ice Maker is ready to go!

Glass Door Finish

Toughened glass front panels present a luxurious, striking finish and are easy to keep clean.

Supercool Chilling Case

The Supercool chilling function is ideal for storing meat, fish or other perishable food, at approximately -3°C to 0°C without freezing it. This provides the convenience of food ready to cook, reducing the need to defrost it.

2-Way Flexi Glass Shelf

Make the Tempered Glass shelf deeper or push it in for more space. It is ideal for storing taller items such as a salad or dessert bowl.

*1 Refer to page 25 for details.

CX Steel Series

Bottom Mount

Perfect for apartment living, the CX Series bottom mount fridge is the ultimate in innovation with its unique 3 door design. Featuring a vegetable humidity drawer, automatic ice maker that doesn't require plumbing, a supercool chilling case and convenient freezer drawer. Available in three colours to suit your decor.

Key Features

Vegetable Drawer with VitaLED

The drawer features higher humidity than the main refrigerator compartment and is ideal for storing and keeping most fruit and vegetables crisper and fresher for longer.

Supercool Chilling Case

The Supercool Chilling function is ideal for storing meat, fish or other perishable food, at approximately -3°C to 0°C without freezing it. This provides the convenience of food ready to cook, reducing the need to defrost it.

ER Series

Top Mount

The ER Series now features 4.5 Star Energy Rating and with its sleek integrated handle design gives your kitchen a clean, contemporary look that will complement your decor.

Key Features

Sliding Case

Equipped with a smooth-sliding roller, the Sliding Chilled Case allows for easy access. Great for storing dairy products, fresh fish or meat and chilling drinks.

Door Alarm

The refrigerator and freezer compartments have separate door alarms which sound when open for over a minute.

LED Light

The LED light will illuminate your refrigerator while being energy efficient.

2-Way Flexi Glass Shelf

Make the Tempered Glass shelf deeper or push it in for more space. It is ideal for storing taller items such as a salad or dessert bowl.

Tempered Glass Shelves

The Tempered Glass Shelves are easy to clean and built to withstand up to 100 kilograms of weight.

U Series

Upright Freezer

The vertical freezer from Mitsubishi Electric is the next step in home organisation and food storage.

Featuring a two-door design, as well as built-in door handles, the MF-U218ET was made to maximise space at home - whether kept in the garage, the laundry, or a butler's pantry.

Key Features

Two-Door Design

Helps reduce the loss of cold airflow when opening each door, resulting in a better cooling efficiency. Better for organisation - the upper freezer section can be used for everyday food, including ready meals, while the lower section for long term storage (like frozen vegetables).

Built-In Door Handles

Say goodbye to handles protruding from the surface and hello to a sleek and streamlined design. This helps save even more space, especially in smaller areas where every millimetre counts. Get the most out of your space with this smart and functional feature.

Compact Dimensions

Designed with smaller spaces in mind including small kitchens, butler pantries, garages and laundries. Large capacity despite its compact and slim dimensions.

Rapid Freeze

To freeze items quicker, simply press the "Rapid Freeze" button to activate the fast-freeze cycle. The movable Aluminium tray helps to cool down and freeze items even faster.

Adjustable Glass Shelf

The bottom tempered glass shelf can be moved up and down, making it ideal for accommodating taller items. Upgrade your storage space with this easy-to-use feature.

Dual LED Light

The LED lights will illuminate when opening the upper or lower door - which can help visibility in darker spaces.

*1. WARRANTY:

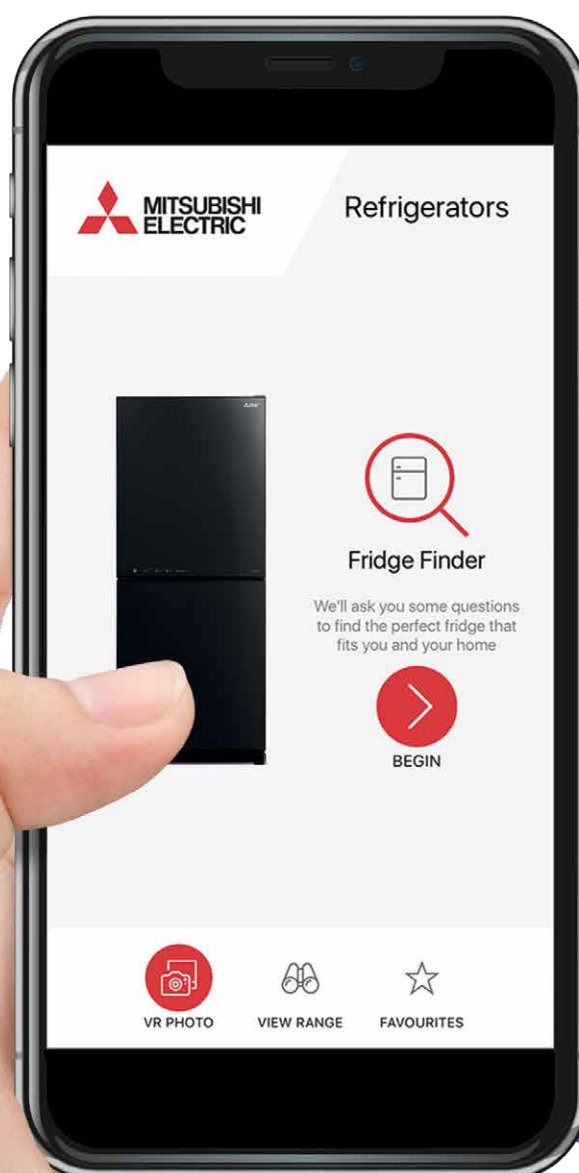

Mitsubishi Electric Inverter Refrigerators are backed by a comprehensive 5 year parts and labour warranty and a 10 year parts warranty on the Inverter compressor.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

ME Fridge Finder

Want to see how these fridges will look in your kitchen?

Mitsubishi Electric Inverter refrigerators are backed by a comprehensive 5 year parts and labour warranty and a 10 year parts warranty on the Inverter compressor. See website for full Terms and Conditions.

Download the **ME Fridge Finder App** from the App Store to see how a Mitsubishi Electric fridge will look in your kitchen.
