A Life More Electric

MSZ-LN Series

The LN Series is a great accompaniment for the contemporary home, blending efficiency with a sleek and ultra modern design. With a range of deep, rich colours, like pearl white, ruby red and onyx black, the LN Series is premium and stylish.

Plasma Quad Plus Filter

An advanced, multi-stage filter system designed to effectively reduce common allergens, bacteria and influenza virus, ensuring the circulation of fresh, clean air back into the room.*1

3D i-See Sensor

Monitors the whole room in sections and directs the airflow to areas of the room where the temperature does not match the temperature setting. For example when cooling the room, if the middle of the room is detected to be hotter, more airflow is directed towards it. Eliminating unnecessary heating/cooling.

Built-In Wi-Fi Control*2

Unlock the door to smarter heating and cooling, for total home comfort. View and control your air conditioner from anywhere in the world, set up schedules and get true two-way feedback.

Dual Split Vane Technology

The unique dual split vane design allows airflow to be customised to suit different areas of the room, by independently directing air up, down, left and right.

For full specifications, please see the QR code on the front of the flyer.

*1 Bacteria, Influenza Virus, PM2.5 & Mould: Testing Standard JEM1467:2015. Allergens (cat allergen & pollen) & Dust: Testing Standard Elisa Sandwich, tested on filter only.

*2 Account and Internet Connection Required.

*3 The Capacity (rated), Total Input (rated) and Running Current (rated) are determined under conditions T1 (cooling) or H1 (heating) of AS/NZS 3823.1.1
Cooling: Indoor 27°CDB/19°CWB, Outdoor 35°CDB/24°CWB
Heating: Indoor 20°CDB/15°CWB, Outdoor 7°CDB/6°CWB

*4 ZERL (Residential) refers to 'Zoned Energy Rating Label' residential star rating based on GEMS 2019 Determination.

*5 Tested in an anechoic chamber according to EN 12102-1:2017.
